

## I U E M U G S

We have received another shipment of the popular IUE mugs. They are ceramic, cobalt blue, with a drawing of the IUE spacecraft on one side and the NASA, ESA, and SERC logos on the other. We are selling these at cost for \$2.75 each. To purchase mugs please see either Randy Thompson or Cathy Imhoff when you visit the IUE Observatory. (We would prefer not to ship the breakable mugs by mail if possible.)
