Dear Colleague:

It is a pleasure to transmit IUE NEWSLETTER #37 to you. We would like particularly to draw your attention to the list of Atlases based on IUE data. Those of you with a particular field of expertise not yet covered by these items are encouraged to consider writing proposals for additional IUE Atlases to summarize the results from the IUE satellite.

This issue contains an updated microfiche version of the Merged Log of Observations up to May 1988.

The usual assistance of Mona Drexler in preparing the articles and the contributions of the authors is gratefully acknowledged.

Sincerely,

A handwritten signature in cursive script that reads "Walter A. Feibelman". The signature is written in dark ink and has a long, sweeping underline.
