NASA NEWSLETTER FOR
INTERNATIONAL ULTRAVIOLET EXPLORER (IUE)
NO. 4

Dear Colleague:

The present issue contains the list of the IUE data that have become available for release to the scientific community. Those interested should write:

Director
National Space Science Data Center
Code 601
Goddard Space Flight Center
Greenbelt, MD 20771

The list of the objects observed, which was published in Newsletter No. 3, covered the period through the end of November 1978 (rather than December 1978 as inadvertently indicated). We plan to publish in the near future a list containing the objects observed since that period.

The content of this Newsletter will be found on the following page.

We wish to thank Dr. Peter M. Perry and Ms. Mona R. Cooper for their competent assistance in preparing this issue.

Cordially,

Yoji Kondo
