The image contains several plots and graphs. The plots are labeled with different categories such as DSCI, DINTER, SCI, CONTAM, SCI - CONTAM, and a model. The x-axis and y-axis are labeled with microns (µm) and magnitudes (mag AB). The plots show variations in brightness and intensity across different wavelengths, with labels indicating specific wavelengths such as 0.8, 0.9, 1.0, 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.7, 1.8, 1.9, 2.0, 2.1, 2.2, 2.3, and 2.4. The bottom right corner of the image shows a scatter plot with data points labeled with 'IDphot = 2257'.
